SUMMARY

Backend engineer with 6 years of experience who is passionate about building software. Hard-working team player looking for new challenges in a dynamic environment.

EXPERIENCE

Senior Software Engineer, FinServe Technologies (Mar 2021 - Present)

- Responsible for the backend of the merchant onboarding platform, built with Python and FastAPI.
- Led the migration of a monolithic Django application to 7 microservices on AWS ECS, cutting deploy time from 3 hours to 20 minutes.
- Worked on improving database performance for the reporting service.
- Was involved in the design of an event-driven notification pipeline using Kafka.
- Mentored 4 junior engineers and ran weekly code reviews, reducing review turnaround from 2 days to 6 hours.
- Helped with various production incidents and on-call duties.

Software Engineer, ShopKart (Jul 2018 - Feb 2021)

- Developed REST APIs for the checkout service used by many customers.
- Introduced Redis caching on product search which lowered p95 latency from 900 ms to 210 ms and saved about \$40k per year in infrastructure costs.
- Writing unit and integration tests was done to improve code quality.
- Worked with the QA team on releases.

EDUCATION

B.E. Computer Engineering, Savitribai Phule Pune University (2014 - 2018), CGPA 8.7/10
